PRODUCTIONS RELEASED ON HARMONY RECORDS

Re-recordings and Remixes of 54 tracks by Steel Breeze's, including the 2 Billboard top 30 hits, "You Don't Want Me Anymore" and "Dreamin' Is Easy". Three EP's and one LP are currently streaming world-wide; in addition to more than 2.5 million streams with a new LP, two new singles, and a new EP scheduled for release before the end of the year.

Released three new remixes from the great solo artist Jose Feliciano this year, "Sixty Years On" Elton John/Bernie Taupin, "I Want to Hold Your Hand" John Lennon/Paul McCartney, and "God Bless the Child" by Billie Holiday. Those three songs currently have over half a million streams world-wide. Another single and an EP are scheduled for release before the end of the year.

Collaborating with Mid-West legend George Faber and Stronghold. The recording was remastered by Maor Appelbaum for Maor Appelbaum Mastering. The album was produced by Lenise Bent whose credits include Steely Dan's "AJA" that won a grammy for engineering, Supertramp's "Breakfast In America" and Blondie and Debra Harry's "AutoAmerican", The Knack and Susie Quatro. She is known as the first woman to receive

an RIAA Platinum Record Award for engineering (for "AutoAmerican.") David's favorite, other than her George Faber and Stronghold work for him, is her recording of Fleetwood Mac's "Tusk" with the USC marching band, his alma mater.

David continues working his By Sound Image Music BMI publishing catalog and Sound Image Entertainment's wholly owned masters that are available for sync licensing. Sound Image's popular recordings of "The Storm" and "Brickyard" sold out on Retrospect Records and was recently released and remixed and remastered by me for streaming in November 2023.

David finalized deals for writer/producer Taylor Sparks for the licensing of 7 songs to Def7 Music Group for BMG Production Music. Sydney Alston, Taylor Sparks and David Chatfield are

in discussions to revive their production company, the United Music Group, and are doing A&R for an upcoming in-house project featuring modern California Country Rock '80's style with lots of guitars and harmonies. They are looking and listening for new talent.
